

**Our Lady of Sorrows School
Summer Math Assignment
June 2023**

Dear Students,

Congratulations on a successful year!

In order to prepare you for your new class in September your teachers would like you to complete IXL assignments over the summer. The next page has links to IXL Summer Boost, this is a 20 day math refresher. For students entering grades K-3rd this is suggested work. For students entering grades 4th-8th you are expected to complete at least 10 of the daily assignments. These assignments do not have to be done in order and can be spaced out throughout the summer months. Completion of this assignment will count as your first test grade in math. Please work at your own pace and try your best.

Your teacher will give you an ID card with your login information. From a computer just go to IXL.com and sign in or if using a tablet or phone, download the free IXL APP and use the easy access QR code from the ID card to sign in. If you need help with logging in with your username or password, or any other questions about the assignment please email Mrs. Hogan at jhogan@ourladyofsorrowsschool.org

Wishing you a very nice summer,

OLS Teachers
